Sir:

Applicants request the withdrawal of the improper Notice of Abandonment mailed December 4, 2003. The grounds for the abandonment was stated to the failure to respond to the notification of missing requirements purportedly mailed on February 1, 2002. A thorough review of the file for the above-identified application and the attorney docketing system's records reveals that a notification of missing requirements was never received.

The surrounding circumstances, as evidenced by the papers filed in this application thus far, support this request. On December 20, 2001, the Patent Office issued a Decision granting a petition to revive the subject application. See Exh. A. The Decision indicated that:

This application is being returned to the National Stage Processing Division of the Office of PCT Operations for further processing in accordance with this decision, including the mailing of a Notification Of Missing Requirements (Form PCT/DO/EO/905) requiring submission of an executed declaration in compliance with 37 CFR 1.497.

Exh. A. Applicants suspect that there was a substantial delay in returning the application from the PCT Legal Office to the National Stage Processing Division.

By letter dated August 22, 2002, Applicants transmitted an executed Declaration and Assignment to their U.S. patent attorneys. At that time, no Notice of Missing Requirements had been received. On October 2, 2002, Applicants filed a Status Request which noted that no further Communication had been received from the Patent Office after the December 20, 2001 Decision. See Exh. B. This Status Request is contemporaneous evidence that the Notification of Missing Requirements was not received.

The return receipt postcard indicates that the Status Request was received by the Patent Office on October 7, 2002. The Patent Office never responded to the Status Request. Instead, the Patent Office next mailed the Notification of Abandonment on December 4, 2003 -- 14 months after the receipt of the Status Request.

After the receipt of the Notification of Abandonment, the attorney for the application, Steven F. Meyer, thoroughly reviewed the file for the application and could not find any Notification of Missing Requirements or any indication of the receipt of a Notification of Missing Requirements. The docketing system report (see Exh. C) confirms that a Notification of Missing Requirements was never received.

CONCLUSION

The grounds for Notification of Abandonment (mailed December 4, 2003) is improper because the underlying Notification of Missing Requirements was never received. Therefore, Applicants respectfully request that the Notification of Abandonment be withdrawn.

Respectfully submitted,

Dated: January 21, 2004

DECISION ON PETITION TO
REVIVE ABANDONED
APPLICATION UNDER 37
CFR 1.137(b)

The petition to revive under 37 CFR 1.137(b) filed 07 September 2001 in the above-captioned application is hereby **GRANTED** as follows:

Applicants' statement that the "the entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional" and the accompanying explanation meet the requirements of 37 CFR 1.137(b)(3).

Applicants have now submitted the basic national fee and the requirements of 37 CFR 1.137(b) have been satisfied. Therefore, the request to revive the application is granted as to the national stage in the United States of America.

This application is being returned to the National Stage Processing Division of the Office of PCT Operations for further processing in accordance with this decision, including the mailing of a Notification Of Missing Requirements (Form PCT/DO/EO/905) requiring submission of an executed declaration in compliance with 37 CFR 1.497.
